

**PERSONS EXPRESSING INTEREST IN PERFORMING
FIRE HAZARD/NUISANCE ABATEMENT
2023**

ABATEMENT QUALITY

- A. All disc work shall be completed in a manner that all weeds, grass, crops, or other vegetation and/or organic material which could be expected to burn, shall be substantially turned under so there shall be insufficient fuel to sustain or allow the spread of fire.
- B. Firebreaks shall be continuous strips of land that is clear of all combustible weeds, grass, stubble, rubbish, or other material which would allow fire to travel. Firebreaks may include, but are not limited to fire resistive vegetation such as irrigated crops, green lawns, ice plant, green ivy, and other plants recognized by the Fire Prevention Bureau as being fire-resistive. Firebreaks shall be approved by the Fire Marshal on a case by case basis.
- C. All perimeters, of the property, shall be cleared of all grass, weeds, and debris; these areas include, but are not limited to sidewalks, gutters, fence lines, etc.
